Approved with Merit	0	Lunch Price - Secondary	\$1.75
Approved with Warning	0	Pupil Transportation Program:	
Not Approved	0	Average Daily Ridership 1999-00	602
High School Graduates:		District Owned Operation	
High School Diplomas-Regular	120	* Certificates of Completion issued at a district level	
Other Completions*	0	** Limited English Speaking (LEP)	

Superintendent's Highlights

The district completed a new elementary school complex in Grangeville.

Technology advancements in the infrastructure between the communities of Elk City, Kooskia, Grangeville, White Bird, and Riggins was completed with networking now available in all of our classrooms.

Staff telephones were installed in classrooms to provide improved communication between parents and staff.

After school programs were funded through a L21 C grant and provided programs in each of our school communities and services for students K-8 with a counseling component in addition. Summer programs will be offered for all students to extend the learning process.

Progress Towards Meeting District Goals

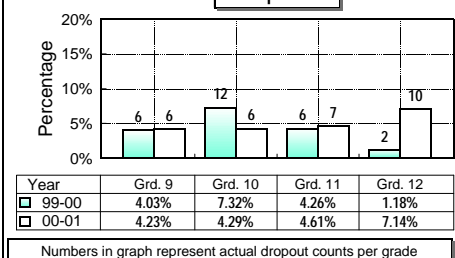

2000-01 Goals	Progress
Improved Communication for staff and community	Strategic Planning was completed and is being implemented in our various communities. Much work is ahead as we continue the input and planning process in our years to come.
After School Programs for K-8 students	A federal grant (L21C) in the amount of \$1.2 million for the next 3 years provided a basis for implementing the programs in each of our communities. Non profit agencies were hired to provide the services for students under the auspices of the school district.
Current and relevant curriculum for all students	Science curriculum was reviewed with a district wide adoption approved by the board of trustees. Members aligned the curriculum and developed a scope and sequence which is congruent with the state achievement standards. Community members were involved in the process and provided input from a parental and industry view.
Emphasis of technology use in the classrooms	Networking in our buildings and between the communities with a T-1 line provides opportunities for our staff. Over 90% of staff completed the technology certification and are beginning to utilize the technology in the student learning process.
Staff development for teaching all learners	Follow up training with an emphasis in providing lessons addressing the different learning styles and providing coaching and peer mentoring for staff continues. Cynthia Tobias training is the basis for this project which is in the third year of implementation.
